### LETTER OF COMMITMENT TO WHOM IT MAY CONCERN

Mangalore University is proud to be one of the Indian Partners of EQUAM-BI project. This project has helped the University to collect data on various parameters to enhance quality. It has also developed a quality policy through use of the Toolkit evolved through the project. We hope to utilize the Toolkit to implement quality measures in all aspects of University's functioning, like teaching- learning, research and development, and administration. The Toolkit will, in particular, be explored further for, i) evolving better practices of data management to cater to the needs of University and external agencies like UGC, NAAC etc. and ii) to facilitate collaboration in research activities with national and international institutes.

This project has also given us an opportunity to learn the best practices of other Partner institutes. We hope to adopt the lessons learnt during the EQUAM-BI project period in our University and thank you for involving Mangalore University as part of this project.

(P. Subrahmanya Yadapadithaya)
